to access twitter developer portal for using API's and Token.

Thank You!

### The specifics

Please answer each of the following with as much detail and accuracy as possible. Failure to do so could result in delays to your access to Twitter developer platform or rejected applications. Need help? [Get support now.](#)

Are you planning to analyze Twitter data?

Yes

**Please describe how you will analyze Twitter data including any analysis of Tweets or Twitter users.**

I will be making an data streaming using plume as my project sticks on the same for the case I will be using few data and tools from Twitter.

Thank you!

Thank you!

Will your App use Tweet, Retweet, Like, Follow, or Direct Message functionality?

 No

Do you plan to display Tweets or aggregate data about Twitter content outside Twitter?

 No

Will your product, service, or analysis make Twitter content or derived information available to a government entity?

*In general, schools, college, and universities do not fall under this category*

 No

Will your product, service, or analysis make Twitter content or derived information available to a government entity?

*In general, schools, college, and universities do not fall under this category*

Yes

**Please list all government entities you intend to provide Twitter content or derived information to under this use case.**

Since I am doing project in data streaming with plume , there is no point for me to give any government entities.

Thank you!

*We require this information in order to review and approve your application. It is important that you name any government entity that you may provide Twitter content or analysis to. If you fail to name an entity, you may see a delay in the review process, a rejected application, or suspension of access to Twitter's developer products.*

This part of the application helps us make sure that our data will be handled in accordance with Twitter's Developer Policies.

Our ultimate goal is to keep Twitter a safe and healthy space for public conversation.

### What's not allowed

Some activities (like surveillance) are never allowed on Twitter. Take a look at our restricted uses page. Double-check that your intended use is policy compliant.

### Automation guidelines

If you plan on enabling any sort of automated activity on the platform (like a bot), be sure to review our automation rules.

### Provide thorough answers

We need to fully understand your intended use and if whether it meets our policy guidelines. That's the only way to have your application approved.

So, please include as much detail as possible in your answers.

All fields are required unless marked optional

## How will you use the Twitter API or Twitter Data?

### In your words

In English, please describe how you plan to use Twitter data and/or APIs. The more detailed the response, the easier it is to review and approve.

[Learn what specific information to include in your use case](#)
